Apple Inc. (AAPL) Stock Chart Analysis:

The chart displays the daily stock price movement of Apple Inc. (AAPL), listed on NASDAQ.

- The current trading price is \$281.74, reflecting a decline of -0.72%.
- A Simple Moving Average (SMA 9) has been applied to the chart, shown as the blue line, which smooths out price fluctuations and highlights the overall trend.
- Below the main chart, the Relative Strength Index (RSI) indicator is plotted, currently showing a value of 39.89.
- An RSI below 30 typically indicates an oversold condition, while above 70 indicates overbought; a value of 39.89 suggests the stock is approaching weaker momentum but not yet oversold.
